## Grants and Contracts: FINANCIAL ANALYSIS: FY23 – FY24 (YTD through Period 3: September)

G&C ANALYST TEAM: JOURNALS	FY24	% of Total	FY23	% of Total	% Chg FY
<b>Journals (Total)</b>	328		303		8%
Appropriate Grants Management	243	74%	243	80%	
"Red Flag" Grants Management	85	26%	60	20%	

*Appropriate Grants Management: F&A adjustments, accounting adjustments, in-kind cost sharing, month-end entries, audit, blank object class, tuition correction, equipment entries.*

*"Red Flag" Grants Management: Primarily prior year Salary and Planning Distribution (SPD) transfers, past term/overages.*

### Key Takeaways:

- The statistics on journals show an 8% increase relative to last year, and an increase in “red flag” grants management concerns. This first occurred in September, so this is something to monitor.
- Independent of journal activity through September, the analyst team managed 334 award initiations, 727 award modifications, 1,315 award corrections, and 120 service now tickets.

### Key Takeaways:

- This data represents awards where actual spending plus obligations and commitments exceeds the current budget.
- The biggest risk area is dollars associated with “past-term” awards (the end date has passed).
- The three exception reports are for awards, grants, and cost sharing. This information is now being provided in three ways:
  - Each month at the beginning of the month, Grants and Contracts provides them to unit financial managers AND now to department chairs.
  - The reports are available on LITE.
  - [Our Exception Report BOT is now in place, where PIs and grant administrators are automatically emailed twice a month to inform them about the exceptions and for them to review \(and take action if needed\).](#)

# Commitment Accounting Reminders

- Review salary distribution with July pay period end dates. July pay periods will be over 90 days after October.
- Exceptions to EDR salary cost transfers over the 90-day limit:
  - In situations where initial or continuing sponsor funding is delayed beyond 90 days after the effective date, consideration for recognition of cost transfers beyond the limit will be addressed by the Grants & Contracts Accounting Office if the transfer is requested within the reporting period of the sponsored project (typically 60 -90 days after the expiration date of the project).
  - If the terms and conditions of the sponsored agreement provide for acceptance and payment of the expenses covered by the proposed cost transfer and appropriate supporting documentation is provided, the Senior Director of Grants & Contracts Accounting may approve the proposed transfer.
- Submit over 90 requests via GT Servicenow (Financials)

## Award/Grant/ Cost Share Exception Reports & Notifications

As you may know, Josh sends out an email beginning of each month with the exception reports. Awards and Grant lines can be defined as exceptions when they have past term charges or have expenditures in excess of their budgets or both. For Cost Share the exception occurs when cost share spending is 10% below the required ratio (varies with sponsor) of sponsored spending to cost share spending.

These reports are to inform Grant Managers, financial staff and Chairs of a status that needs review and correction (if needed).

This month we have employed our Robotic Process Automations (RPA) to review the sponsored portfolio and generate notification emails that will go to the PI and the Grant Manager of record any exceptions as described above. We hope these emails will help you all in making the needed corrections to the grant lines and awards. Some are as simple as budget revisions to correct budget so grant line is not in deficit (red ink is bad), others are needed so that the G&C close out can proceed with having past term charges removed.

Also, on NIH awards with salary cap cost share lines please add budget so expenses do not cause a deficit and put line on exception report.

With the RPA process this frees up my Analysts from having to send emails regarding these exceptions.

Some exceptions may not require any action from you – i.e., a no cost extension is in process to cover a past term charge. Also, with the RPA we will be able to collect data on how many exceptions are being corrected between RPA emails. As long as the exception exists the RPA will send notifications.

Please take the time to review these and make timely corrections. If there are other types of automated notifications, you think would help you manage awards please send your ideas to me.

# Project Accounting Updates

## Cost Share

- First rule of Cost Share – Do not offer up cost share unless it is mandated by sponsor or in some cases it is a factoring criteria in winning the award. Secure CS funding before submitting proposal.
- Some agencies still require cost share from GT if you receive an award from them. For example US DOT/ FAA ACESNT awards have a 1:1 cost share requirement. So for every Federal dollar spent a matching dollar from GT or others must be spent in support of the award.
- In SABER G&C will create a cost share grant line and if there is a subcontract there will be a grant line for that too.
- Expending and posting GT cost share is just a matter of charging expenses to the cost share grant line –it is almost identical to the process for spending the award funds.
- Units should charge their proposed cost share expense as budgeted in the proposal routing package. G&C will load that budget in the cost share grant line. It us up to the unit to ensure they have state funds properly budgeted to meet the cost share.

# Project Accounting Updates

## Cost Share

- Follow the cost share budget plan. Try to match sponsor burn rate & cost share burn rate. This is important as some agencies will not pay invoice unless cost share is in step with sponsored spending.
- Does sub award have cost share?—If your sub awardee has cost share commitments as part of the sub award the PI and unit financial staff must monitor to see that it is met AND also report that 3rdparty in-kind cost share to G&C so we can post it to the grant.
- The sub will provide a statement of their in-kind usually with their invoice. This information and the G&C Cost Share Certification form must be sent to G&C Analyst.
- Found here: <http://grants.gatech.edu/main/policies-procedures-and-forms/standard-forms/>
- Don't approve sub invoices unless cost share is provided –good leverage to ensure compliance with meeting cost share.

# Project Accounting Updates

## Cost Share

- Upon request G&C can create a cost share grant line for the sub awardees cost. This is recommended practice to help you keep abreast of your cost share progress. If you have multiple subs, a line can be made for each one.
- Every time cost share is reported to you please report it timely to G&C, don't wait to do it all at the end. Financial reports go out and we do report out on the cost share.
- Remember cost share un-met will reduce your sponsor dollars proportionally and unit will bear the cost of covering the unmatched expenses.
- The new Exception report emails will highlight the cost share grant lines that are more than 10% off the required spend rate.

# Annual Statement of Reasonableness Updates

- 760 (12%) FY23 ASRs still need employee confirmation as of Friday, October 20<sup>th</sup>
- ASRs are now past due and out of compliance
- 367 (6%) of ASRs that's confirmed by employee but still require Unit Financial Manger certification
- Manual ASRs for prior year cost transfers can be requested from the help desk or produced on the ASR page by the assigned UFM
- Please reach out to eASR help desk for any questions or concerns regarding ASRs – [easr.ask@office365.gatech.edu](mailto:easr.ask@office365.gatech.edu)

# SCARV - Service Center Annual Rate Validation

- Due **November 3<sup>rd</sup>, 2023**, with supporting documentation
- Purpose of SCARV is to ensure that:
  - *Service Centers are not making a profit*
  - *Expenses charged are allowable (e.g., no advertising or marketing expenses)*
  - *Service Centers are charging the approved, published rates for each of their services*
- At GT, the service center charge rates are validated annually. Currently, we are in FY24, so we are asking for FY23 SCARV information
- All personnel, effort allocation, equipment & space information needs to be documented within the SCARV form
- Must include ALL service center expenses - including ones posted to Non-DSS worktags.
  - *E.g., Expenses for supplies used for service center posted to dept Worktag*
- Reported usage should tie out to total collected revenue
  - *E.g., 10hrs of labor (usage) \* \$25/hr (rate) = \$250 (revenue)*
- Free use must also be reported on the SCARV form
- Questions – [Andrew.Chung@business.gatech.edu](mailto:Andrew.Chung@business.gatech.edu) or [servicecenter.ask@list.gatech.edu](mailto:servicecenter.ask@list.gatech.edu)

# Service Center Billing

- Billing to a Worktag established in the Financial System
  - Ledger Account 471100 Quasi- Revenue
    - RC471111 (Quasi/Internal DSS) - State, GTF, and GTRC Funds
    - RC470131 (Revenue Category ) –Sponsored Awards
  - Billing to external sources without a Worktag
    - Ledger Account 452500 –Sales Miscellaneous
    - RC452590 -DSS -External to GT

# Service Center Compliance Risk

- Need to ensure that service centers are charging the published rates. The rates for all service centers are published on the Grants & Contracts website:  
<https://grants.gatech.edu/policies-and-procedures/facilities-and-administrative>
- Pay attention to effective dates of the rates – especially if rates change during a fiscal year. It is department's responsibility to keep track of when the rate changes go into effect and charge for the correct rates.
- Ensure service center usage (Rate \* Qty) is being reported correctly on the SCARV for each type of service offered by the service center. This helps determine whether the center is under or over-recovering for each service.
  - *E.g. On a previous audit, we found out a service center was charging out for a service that did not have a published rate. A new equipment was added but G&C was not informed. This poses a compliance risk.*

# Award History

- Workday has delivered a report that enables the user to easily review all changes to an award and award-related information, such as grants and billing schedules. The report helps the user identify critical changes that might affect award spending or billing and improves auditability.

The screenshot shows a configuration window titled "Award History" with a close button (X) in the top right corner. The window contains several input fields for filtering the report:

- Award**: A text input field with a red asterisk (\*) and a menu icon (three horizontal lines) on the right.
- Award Lines**: A text input field with a menu icon on the right.
- Award Contract Versions**: A text input field with a menu icon on the right.
- Business Objects**: A text input field with a menu icon on the right.
- From Date**: A date and time input field with a red asterisk (\*), a calendar icon, and a time selection box. The value is "01/01/1900" and the time is "03:00:00 AM".
- To Date**: A date and time input field with a red asterisk (\*), a calendar icon, and a time selection box. The value is "10/23/2023" and the time is "07:50:19 AM".

At the bottom of the window, there are two buttons: "OK" (orange) and "Cancel" (white with a grey border).

# Award History

- The report displays a comprehensive record of all changes, including when they were made and by whom. It allows you to track changes associated with each version or amendment of the award. Additionally, you can perform specific field searches. For example, if you search for 'authorized amount' in the changed field column, you will be able to view the funding history.
